GRAIN AND PROVISIONS.

Chicago, Aug. 8.—September wheat was soly freely at the beginning of the session because yesterday's frost scare proved to have been practically unfounded and because Liverpool cables were casy. September opened %6/4c lower at 11.0714. The corn strength started a buyling movement of fair proportions and during the first hour the market rose to not 11. The fact that only eight loads were reported taken for foreign shipment, lighter seaboard clearances and optimistic crop reports from the spring wheat country later combined to create bearishness, and September in consequence declined to 70% and closed easy 14.0% under yesterday at 70%.
